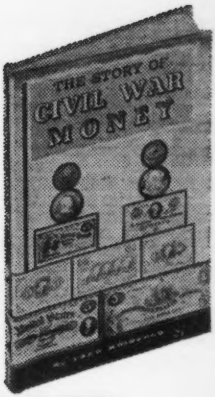
THE STORY OF CIVIL WAR MONEY

BY FRED REINFELD **$2.95**



Complete and exciting account of how the Civil War was financed by both North and South. It describes the ways the shortage of metals was overcome, how the whole money problem had its effect on the war, and how the tides of battle affected the values of money, from the outbreak of the war to the surrender at Appomattox. The author gives equal coverage to Confederate issues and Union issues. A major book on an important phase of the War for collectors of Americana.
